|--|--------|--------------------------|----------------------------|
| <b>Study programme:</b> Security studies   |        |                          |                            |
| <b>Course title:</b> Fundamentals of globalization theory  |        |                          |                            |
| <b>Lecturer:</b> Miroslava Filipović/Milorad Đurić   |        |                          |                            |
| <b>Course status:</b> Elective   |        |                          |                            |
| <b>ECTS:</b> 9   |        |                          |                            |
| <b>Requirement:</b> None   |        |                          |                            |
| <b>Course aims</b><br>The main objective of the course is to give students an insight into the different concepts of globalization. The subject also analyzes different aspects of globalization. Students should understand and master the existing theoretical knowledge of globalization and apply them successfully in future careers and further education.   |        |                          |                            |
| <b>Course outcome</b><br>Students will be able to recognize, analyze and apply the basic theory of globalization. Mastering the different theories of globalization enables students to competently analyze contemporary social and political processes.   |        |                          |                            |
| <b>Course content</b><br><i>Theory classes</i><br>The notion of globalization. Globalization and history. Modernization and globalization. Globalization - two characters of the world. Rivals approaches in the study of globalization: hyperglobalists, skeptics, transformers. Media and globalization. Internet and globalization. The world that escapes us. Global culture. Globalization and national states. Global and local. Transnational actors. New global order. Globalization - pro et contra.<br><i>Practice classes</i><br>Seminar work and study of case studies.  |        |                          |                            |
